

DEVIN BROWN, RN, BSN

Festus, MO | Devin.T.Brown@outlook.com

PROFESSIONAL PROFILE

Highly analytical Registered Nurse (RN/BSN), Clinical Subject Matter Expert (SME), and data-driven professional specializing in healthcare technology, workflow optimization, and applied artificial intelligence. Leveraging advanced Epic system expertise alongside practical skills in Agentic AI, Machine Learning, and Data Science to bridge the gap between complex clinical workflows and advanced technical solutions. Seeking to leverage hands-on experience building multi-agent AI workflows and data models to lead innovative health-tech initiatives, optimize clinical software, and improve both patient outcomes and the nursing experience.

TECHNICAL CORE COMPETENCIES

- **AI & Machine Learning:** Agentic AI Orchestration, Neural Network Architecture, AI-Assisted Statistical Reasoning.
- **Developer Tools & Frameworks:** VSCode, Claude, GitHub, Gemini, NotebookLM.
- **Data Analysis & Programming:** Python (Pandas/NumPy libraries), Foundational SQL.
- **Healthcare IT & Systems:** EPIC Subject Matter Expert (SME), Epic eMAR, MyChart Portal, Clinical Documentation Architecture.
- **Project Methodologies:** Change Management, Agile/Scrum, Waterfall, Process Control.

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

Applied AI and Data Science Certificate | *Massachusetts Institute of Technology (MIT)* | **Expected Completion: 2026**

- Completed an intensive 15-week curriculum focused on building AI-powered solutions for complex business and operational problems.
- Gained deep, hands-on technical expertise using Python, VSCode, Claude, Gemini, and NotebookLM through dedicated project work.
- Developed comprehensive fluency in architecting multi-agent AI systems, machine learning foundations, and implementing ethical data governance.
- **Earned Credentials:** 16 Continuing Education Units (CEUs).

TECHNICAL & CLINICAL EXPERIENCE

MERCY HOSPITAL – St. Louis, MO

Clinical Preceptor / Registered Nurse – Intensive Care Unit (ICU)

Oct 2022 – Jan 2025

- **Healthcare IT Leadership:** Served as a Unit-level SME, standardizing the use of complex Epic documentation and critical care technology to optimize staff workflows and drive data compliance.

- **Data Integrity & Analysis:** Maintained strict clinical data integrity for highly acute patients by continuously monitoring and interpreting high-velocity data streams from ventilators and hemodynamic devices.
- **Process Management:** Designed and executed a structured onboarding program for new RN staff , managing a 12-week development lifecycle to ensure adherence to institutional quality metrics.
- **Quality Control:** Managed strict medication protocols via Epic eMAR , ensuring zero-defect compliance with complex titration orders under high-pressure scenarios.

BARNES WEST MEDICAL CONSULTANTS – St. Louis, MO

Certified Medical Assistant

Apr 2019 – Oct 2020

- **Workflow Optimization:** Project-managed dynamic clinical schedules for a multi-provider practice , implementing new workflows to maintain operational efficiency across a 3+ physician intake flow.
- **Data & Revenue Cycle Management:** Executed critical data workflows by securing time-sensitive prior authorizations with payers , ensuring continuity of patient care and maintaining healthy revenue cycles.
- **System Communications:** Managed complex patient-provider communication channels via the MyChart portal and electronic systems , improving data transparency and the overall patient experience.

EDUCATION

- **Bachelor of Science in Nursing (BSN)** | *Goldfarb School of Nursing*, St. Louis, MO | **Dec 2021**
 - *Honors:* Graduated Cum laude
- **Bachelor of Arts in Biology** | *Westminster College*, Fulton, MO | **May 2018**
 - *Honors:* 3.72 GPA, Cum laude, Honors College Coursework
 - *Research:* Focused on local ecology/invertebrate populations and neurocognitive responses.
